

Лукина СВЕМИРСКА АВАНТУРА

A vibrant, stylized illustration of the solar system. The Sun is a large, bright yellow sphere with orange and red rays on the right side. Eight planets are shown in various colors and patterns, orbiting the Sun along purple elliptical paths. The planets include a grey cratered planet, a blue and green Earth-like planet, a blue planet with horizontal stripes, and several others in solid colors like yellow, pink, and green. A small spaceship with a pink and orange body and a pilot in a white helmet is flying from left to right. A white speech bubble with a tail pointing to the spaceship contains text in Serbian. The background is dark purple with various star shapes and patterns.

У Сунчевом систему
има осам планета које
круже око Сунца.
Крећемо у обилазак!

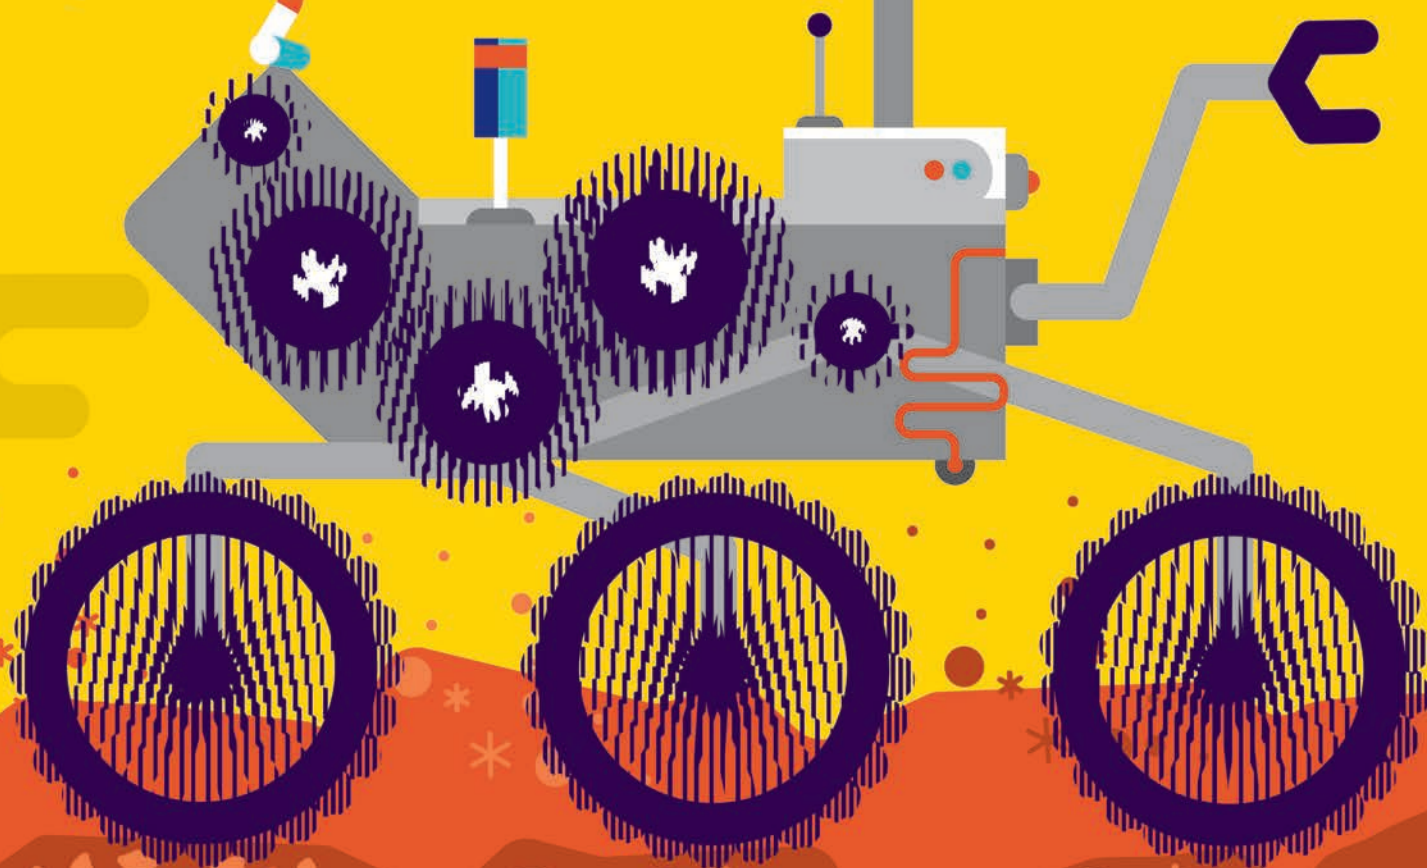

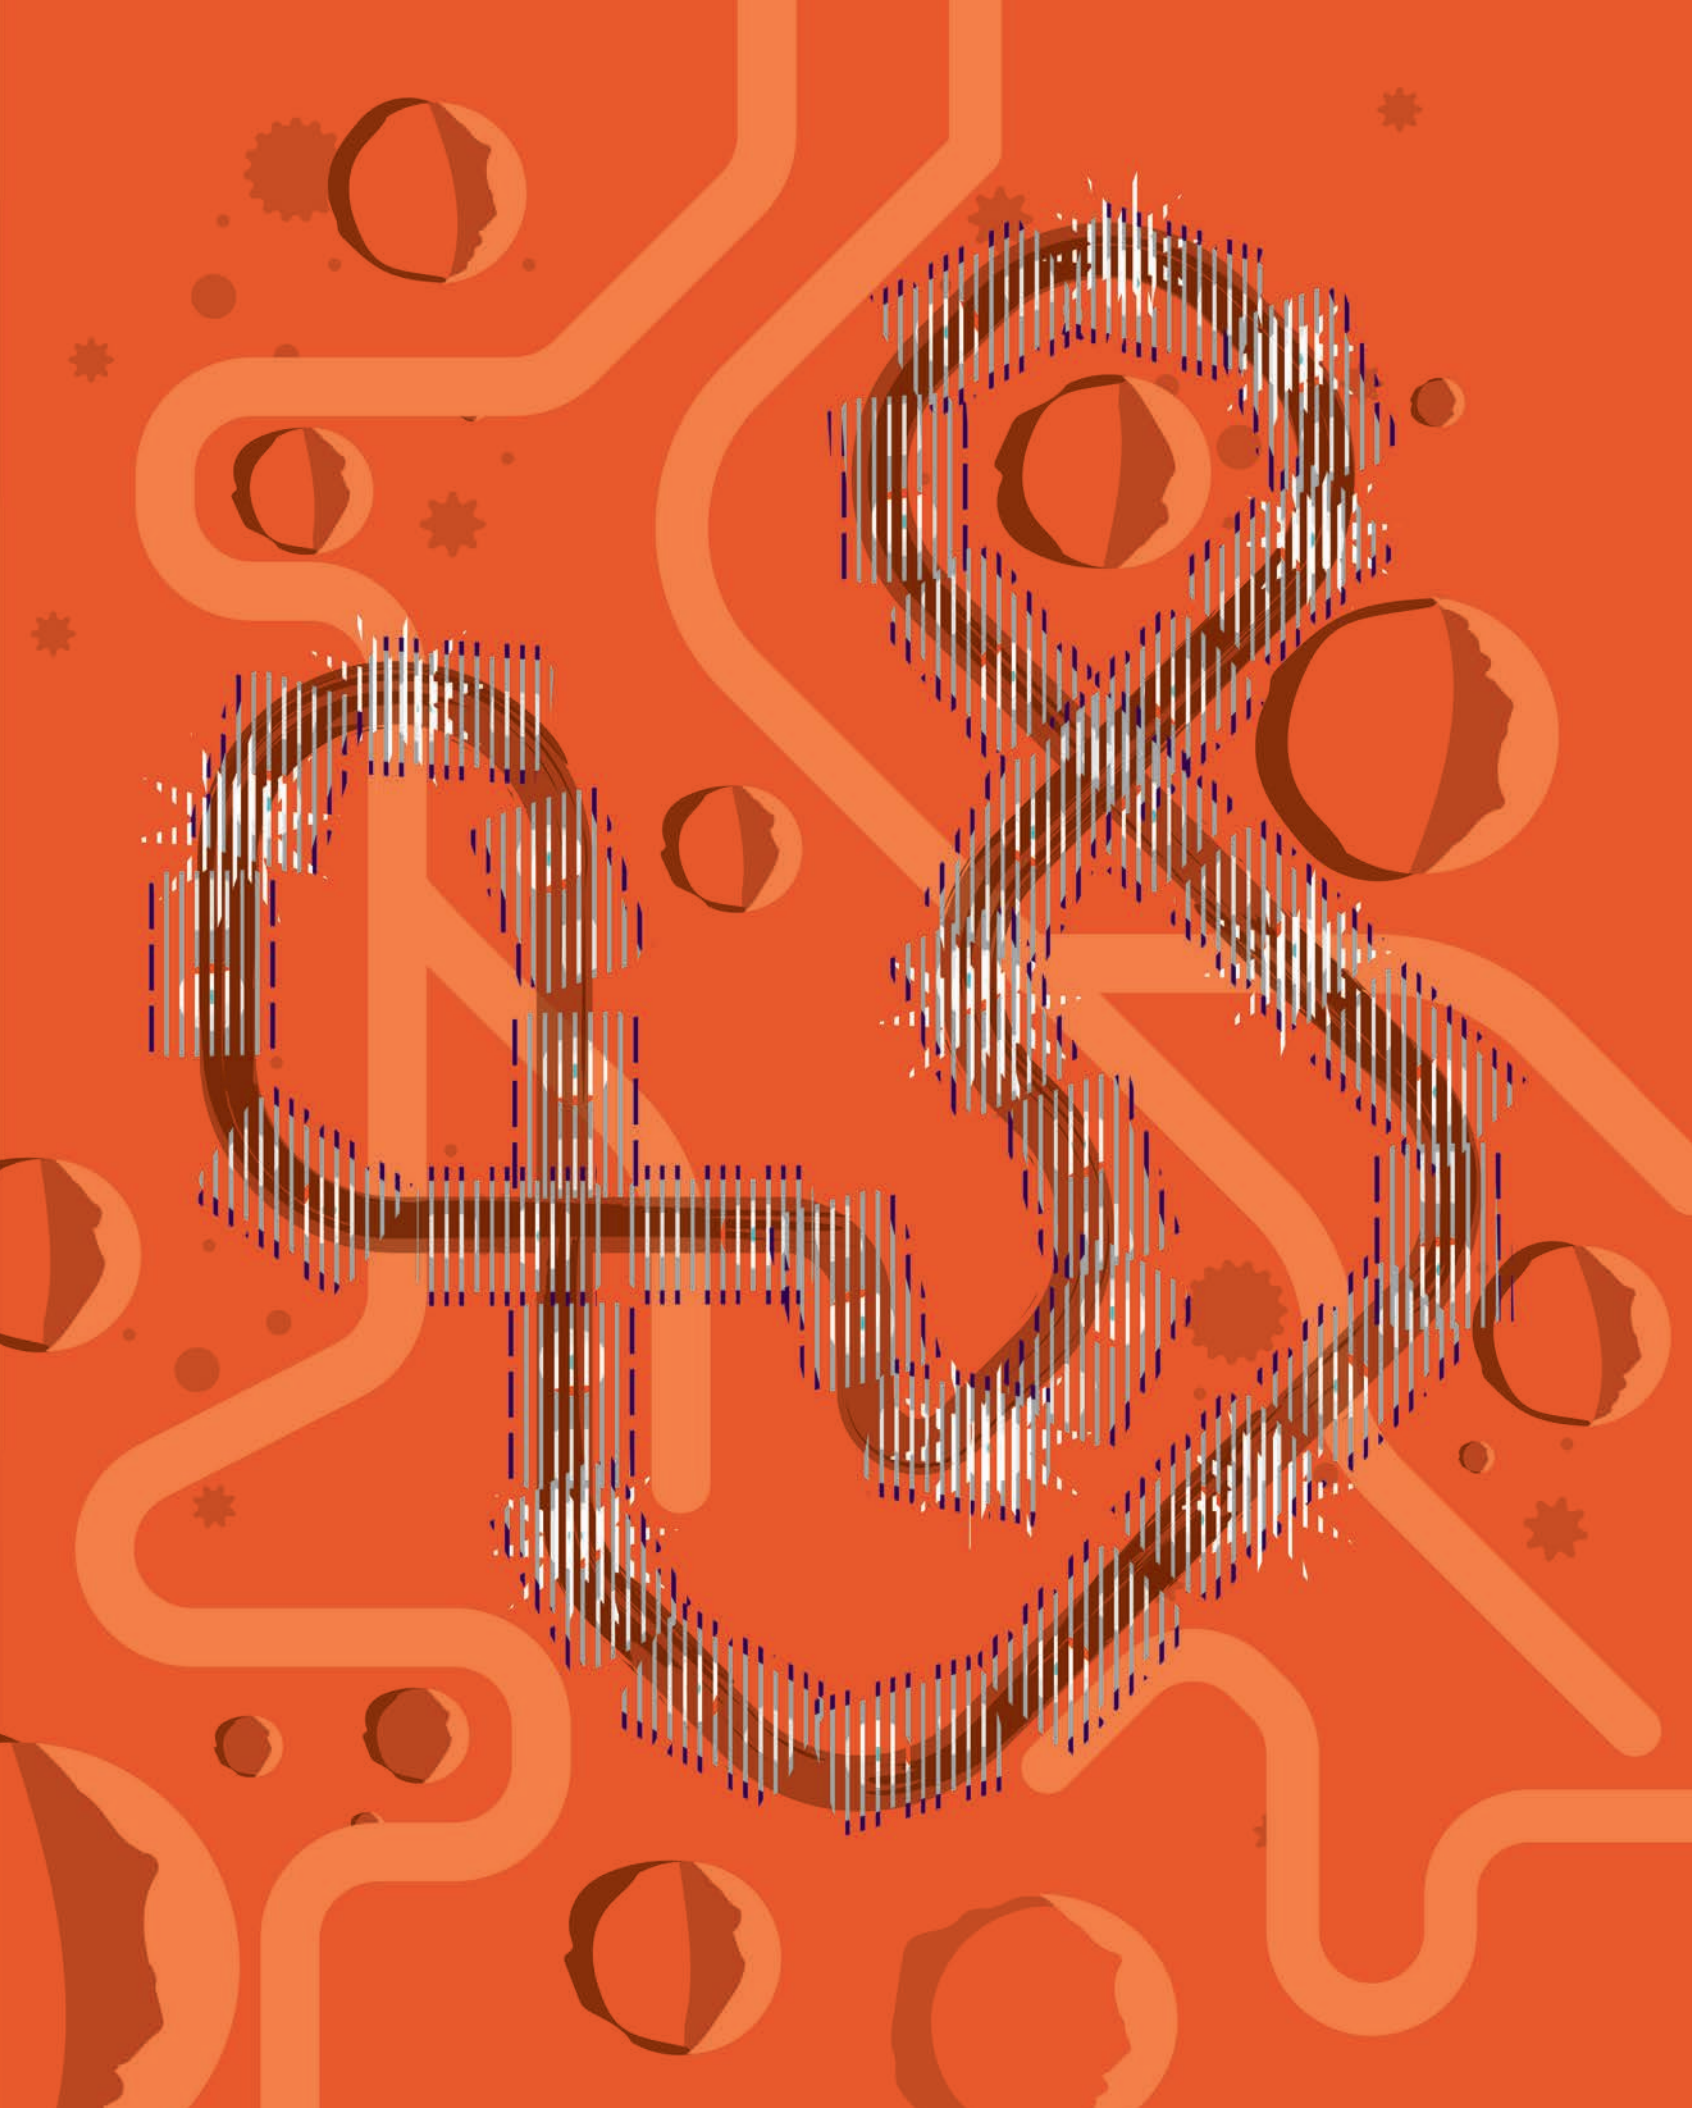

Људи са Земље шаљу
много напредне
машине и летелице
у свемир.

Марс је црвена, стеновата планета.
Њу истражује робот Ровер.
Здраво, Роверу!

Пролазимо кроз
појас астероида.
Подигнимо штит!
